

College Event Feedback Analysis – Internship Project

This report provides a graphical analysis of student feedback collected during a college event. The focus is on visual representation of satisfaction levels, top-performing areas, areas requiring improvement, course-wise performance, and question-wise distribution. Blank or irrelevant visuals have been excluded to maintain clarity.

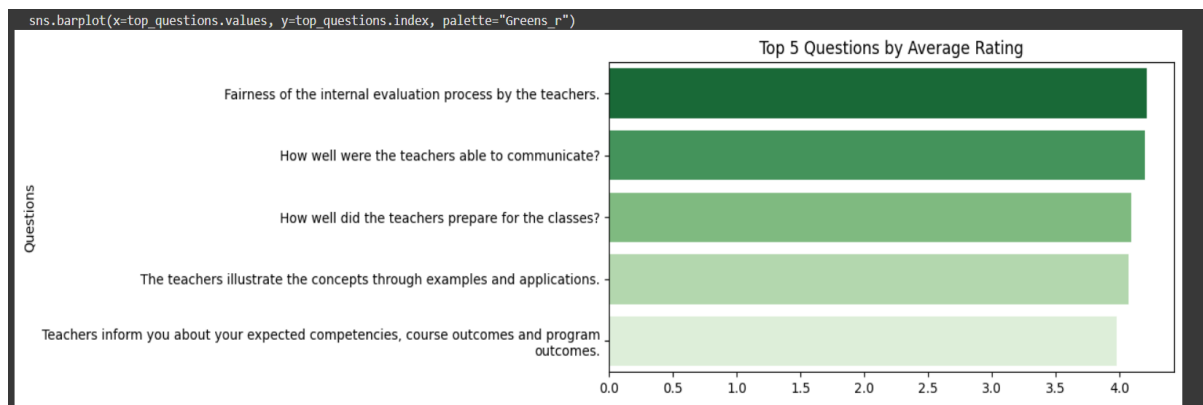

1. Overall Rating Distribution

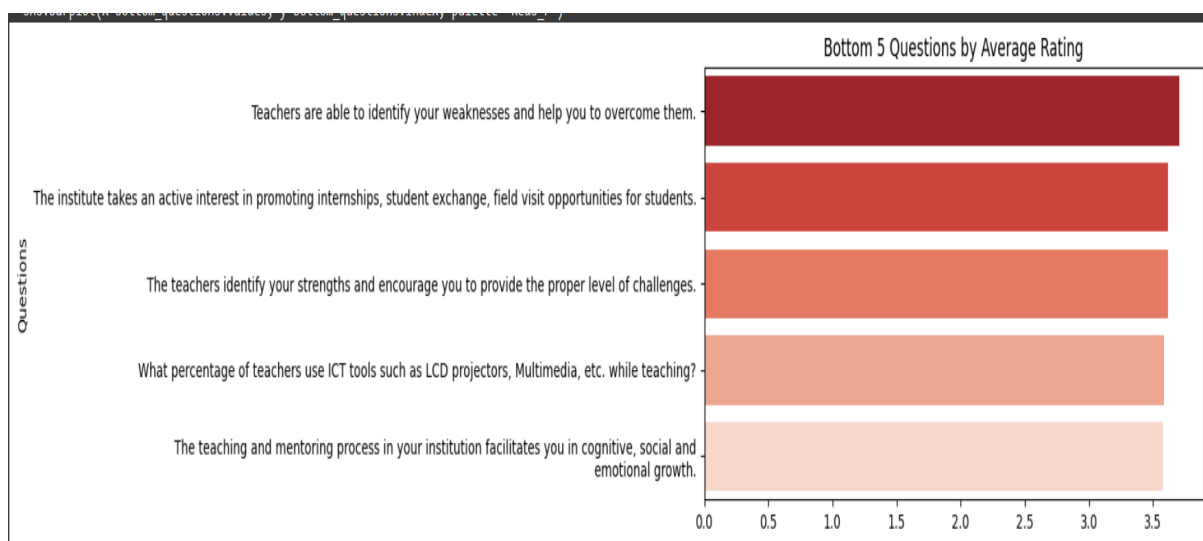

2. Top Performing Areas

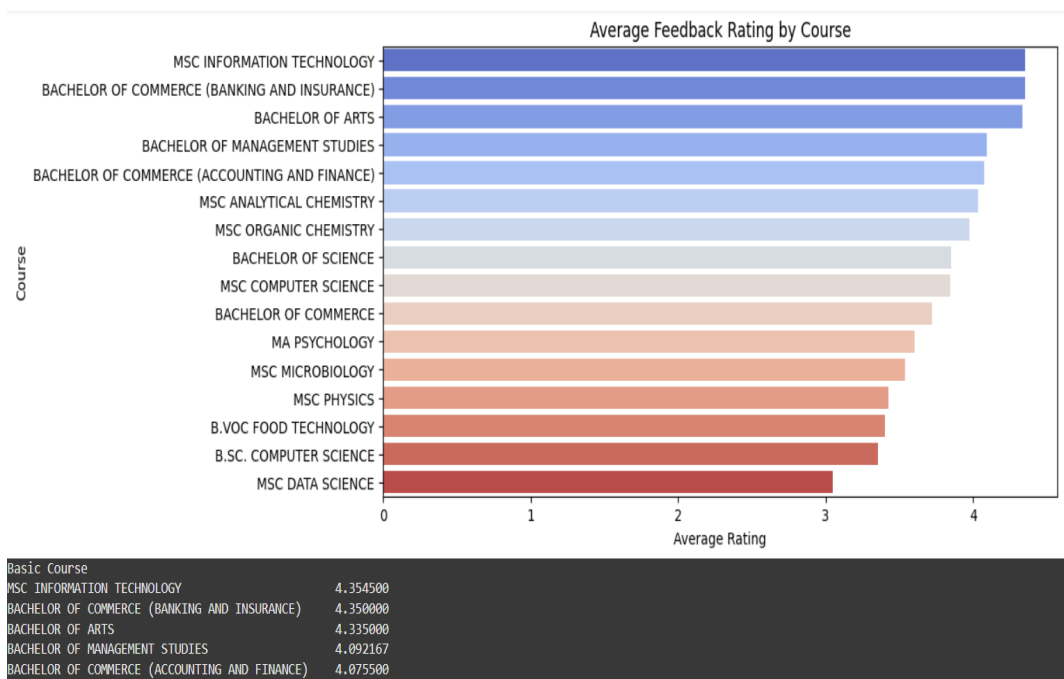

3. Areas Needing Improvement

4. Course-Wise Feedback Ratings

5. Question-Wise Scores Across Courses

Conclusion

The graphical analysis indicates a high level of student satisfaction overall, with most ratings falling under Weightage 4 and 5. Faculty fairness, communication, and preparation were the strongest areas, while mentoring and ICT tool usage require improvement. Course-wise variations reveal specific strengths and weaknesses, and question-wise analysis highlights areas for targeted institutional enhancement.
